

BLUEPEAK INTERNET SERVICE NOW AVAILABLE IN GRAND FORKS

Bluepeak's \$27 million expansion will bring high-speed fiber internet to more than 27,000 homes and businesses in the community.

(GRAND FORKS, N.D.) – Sept. 15, 2022 – [Bluepeak](#) began connecting its first customers in Grand Forks today to officially launch its fiber internet service in North Dakota. The milestone follows a [groundbreaking in May](#) and a [previously announced investment of \\$27 million](#) to bring Bluepeak's high-speed fiber network to nearly 27,000 homes and businesses in Grand Forks.

"Today is a great day to be an internet consumer in Grand Forks," said Rich Fish, Bluepeak's CEO. "We're proud to be bringing more, better internet options to the great community of Grand Forks, where they have been great partners in enabling our fiber-to-the-home network expansion here."

Grand Forks residents in the area north of 24th Avenue between 36th Street and 20th Street will be the first to have service available to them, with construction moving northeast after that. Those interested can confirm service availability with their address at mybluepeak.com.

Bluepeak brings more and better internet service options to residents in Grand Forks by providing fast, reliable, affordable internet with all-in pricing. That means the price on the website is the price on the bill. Bluepeak's fiber internet is as fast as it gets with a minimum speed tier of one gigabit-per-second (Gbps) – upload and download – [at just \\$50 per month](#). With Bluepeak service, local residences and businesses also get [eero Secure](#), which provides whole-home WiFi and protects devices from online threats, ads and allows for customized content filtering.

Bluepeak is designed to provide the best fiber connection without the things that get in the way of great service — like red tape, hidden fees and slow response times. Those in Grand Forks looking for more information can visit mybluepeak.com.

About Bluepeak

Bluepeak is building a faster, more reliable internet without the things that get in the way of great service — like red tape, hidden fees, and slow response times. Offering up to 5 gigabits of speed for residential customers and 10 gigabits for businesses, Bluepeak is a whole new ballgame — from internet to TV, to connecting every device in a home, to powering a business, Bluepeak not only provides the best fiber connections in the communities it serves, but also meets the growing needs for how its customers live.
